Yurii Horoshenko

Lead iOS / Mobile Engineer · AI-Assisted Development

yurii.horoshenko@gmail.com · linkedin.com/in/yurii-horoshenko · github.com/yurii-horoshenko · Telegram @gi_part · Wrocław, Poland

SUMMARY

Lead iOS engineer with **15 years** of shipping mobile products in Swift, SwiftUI and Objective-C, now working across the stack with **Kotlin Multiplatform**, Android and backend. I founded **VisiTime**, a booking marketplace with four native apps on a shared KMM core, and I develop **Argoforge**, an open-source environment for AI coding agents. Until 06/2026 I built an enterprise **contactless-payment SDK** at Grid Dynamics (EMV Level 1/2, Mastercard MCBP, Visa VCBP certified). Led teams of 3–5 engineers, set up Fastlane CI/CD (−30–50% deployment time) and introduced architectures that cut regressions by 60%.

SKILLS

iOS	Swift 6, SwiftUI, UIKit, Objective-C, async/await, Actors, @Observable, Combine, SwiftData, Core Data
Payments & Security	EMV L1/L2, HCE/NFC, Mastercard MCBP, Visa VCBP, CryptoKit, Secure Enclave, Keychain, App Attest, PassKit, ixGuard
Cross-platform	Kotlin Multiplatform, Kotlin 2.2, Jetpack Compose, Ktor, Koin, Coroutines
Backend	C# / .NET, ASP.NET Core, PostgreSQL, Elixir / Phoenix LiveView, Stripe, REST, OpenAPI
Architecture	Clean Architecture, MVVM, VIP / VIPER, multi-module SDKs, protocol-oriented design, SOLID, custom DI
Delivery	Fastlane, XcodeGen, SwiftLint, Sourcery, GitHub Actions, Jenkins, Artifactory, Firebase
Testing	swift-testing, XCTest, Cucumber / Gherkin BDD, Appium, unit and integration testing
AI engineering	Claude Code, multi-agent workflows, custom skills, hooks, MCP, Cline, Aider, Copilot

EXPERIENCE

Author · Argoforge (open source)

2026 – Present

github.com/yurii-horoshenko/Argoforge · Apache-2.0

- Model-agnostic environment for AI coding agents: picks agents and skills per task, analyses past sessions and turns repeated mistakes into enforceable rules
- 10 modules with self-tests: Node.js host and hooks for Claude Code, a native **SwiftUI macOS menu-bar app**, a 3D knowledge-graph view, ru/en localisation

Node.js · Vite · SwiftUI (macOS) · Claude Code hooks & skills · MCP

Founder · Lead Mobile Engineer · VisiTime

08/2023 – Present

Booking marketplace for barbershops and beauty salons, visitime.net

- Built four native apps — Client and Business for **iOS (SwiftUI)** and **Android (Jetpack Compose)** — on a shared **Kotlin Multiplatform** core with Ktor and Koin; author of ~1,400 of 1,700+ mobile commits
- Co-developed the backend with a partner: **ASP.NET Core (.NET 10)** REST API on PostgreSQL, **Elixir / Phoenix LiveView** web, partner and admin portals, Stripe subscriptions, GitHub Actions CI
- Run development through an AI agent pipeline on Claude Code — PM → Architect → Backend / iOS / Android → Review → QA — with Linear as the task queue and human gates at planning and acceptance
- Maintain the product's design system and screen specifications as a living documentation vault

Swift · SwiftUI · Kotlin 2.2 · Compose · KMM · Ktor · Koin · .NET 10 · PostgreSQL · Elixir · Phoenix · Stripe · Fastlane

Senior iOS Developer · Grid Dynamics

05/2024 – 06/2026

iOS Payment SDK — enterprise SDK for contactless mobile payments (Visa)

- Implemented Host Card Emulation (HCE) for NFC payments with Mastercard MCBP and Visa VCBP
- Built a full EMV kernel: TLV / BER-TLV parsing, APDU commands, cryptograms, ODA, CVM
- Implemented RSA (CRT-optimised), AES, SHA-256/512, HMAC, JWE/JWS; keys in Secure Enclave and Keychain
- Architected a multi-module SDK (private Core + public Shared API + Demo app) on MVVM + Clean Architecture with a custom property-wrapper DI container
- Fastlane pipeline for XCFramework builds, signing, Artifactory publishing; ixGuard obfuscation and integrity checks
- **280+ unit tests** (swift-testing) plus Cucumber BDD certification suites; obtained **EMV L1/L2, MCBP and VCBP** certification
- Introduced AI-assisted development to the team: custom Claude Code skills and agents

Swift 5.10 · iOS 15+ · SwiftUI · SwiftData · CryptoKit · Secure Enclave · App Attest · Fastlane · XcodeGen · SwiftLint (80+ rules)

Senior iOS Developer · Grid Dynamics
04/2023 – 02/2024

Transflo — logistics and trucking platform (staff augmentation)

- Delivered iOS features in Swift and SwiftUI inside a cross-functional client team

Lead iOS Developer · Grid Dynamics
06/2022 – 03/2023

The Container Store (e-commerce) · fuel-station app

- Led a team of 4 iOS developers, mentored junior engineers; SwiftUI adoption sped up delivery by ~30%
- Introduced VIP architecture — **−60% application errors**; integrated Stripe payments
- Set up Fastlane, XcodeGen and SwiftLint (100+ rules); led ARKit / SceneKit features

Swift · SwiftUI · VIP · KMM · ARKit · SceneKit · Core Data · Firebase · Stripe

Lead iOS Developer · Tranzzo
06/2020 – 02/2022

OxiBank — banking application

- Integrated PassKit digital-wallet support and NFC card flows
- Automated releases with Fastlane — **−50% deployment time**
- Mentored 3 junior engineers; groomed backlog and planned sprints with product owners

Swift · SwiftUI · VIP · Core Data · Firebase · IGListKit · PassKit · NFC

Lead iOS Developer · Lalafo
10/2018 – 05/2020

Classifieds marketplace

- Performance work on a legacy codebase — **−25% API response time**
- Reactive data flows with RxSwift / ReactiveCocoa and Realm; code reviews; 8 on-time feature releases

Swift · MVVM-C · RxSwift · Realm · Firebase · MapKit · Moya

iOS Developer (Junior → Senior) · Infopulse · Digicode · Mobisoft · Genesis · BoostSolutions
04/2011 – 09/2018

Dating, parental control & family locator, live-streaming auction, veterinary clinic apps

- Migrated codebases from Objective-C to Swift; interactive animations with Core Animation and UIKit Dynamics
- Integrated Wowza live streaming, Twilio, XMPP chat, WebRTC and Realm; estimated and delivered projects for 4 clients

Objective-C · Swift · MVC / MVVM / VIPER · Core Animation · Core Location · Realm · Firebase

SELECTED APPS

VisiTime · Transflo · The Container Store · OxiBank · Lalafo · Hily · Vethem · Kidgy · PlsPlsMe · Live Auction · Stroovy

EDUCATION & LANGUAGES

Education

Specialist, Applied Informatics (Physics, Mathematics and Informatics)
Kherson State University · 2004 – 2008

Languages

English — B2
Ukrainian — native
Russian — native
